

## How to Install New Vsign Download Utility Version – 3.4

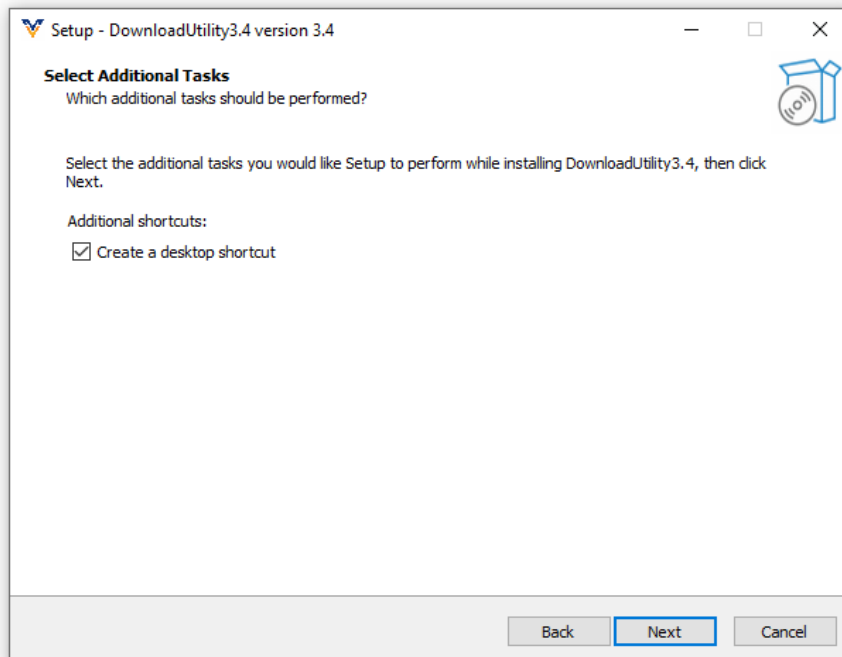

- Open the vsign download utility folder, right click on setup file and click on run as administrator.
- Click on **“Yes”** Button.

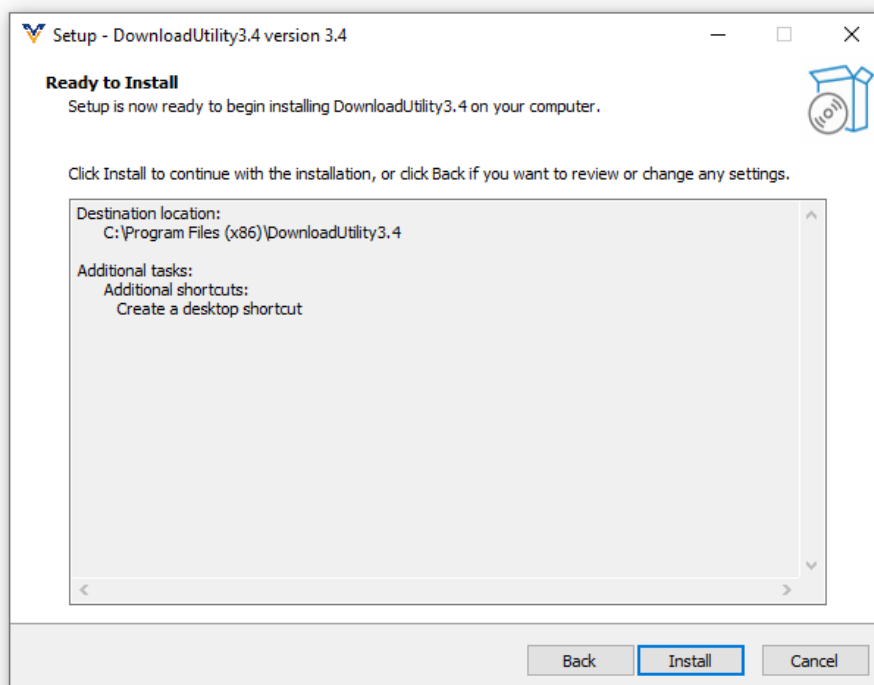

- Click on **“Next”** button.

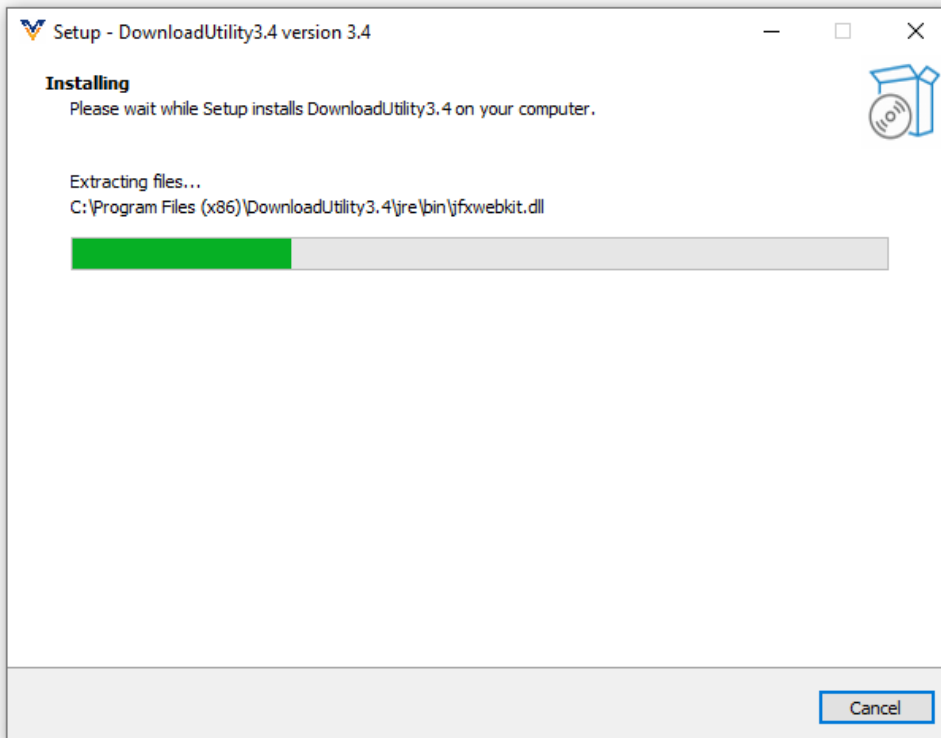

- Click on create desktop shortcut checkbox and then click on **“Next”** Button.

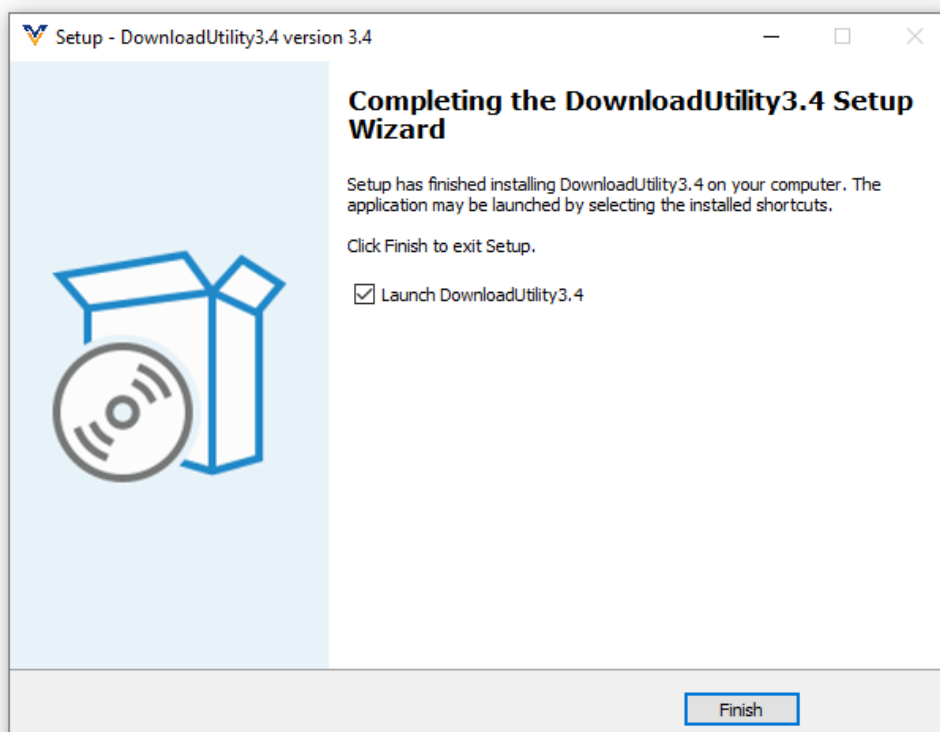

- Click on **“Install”** Button.

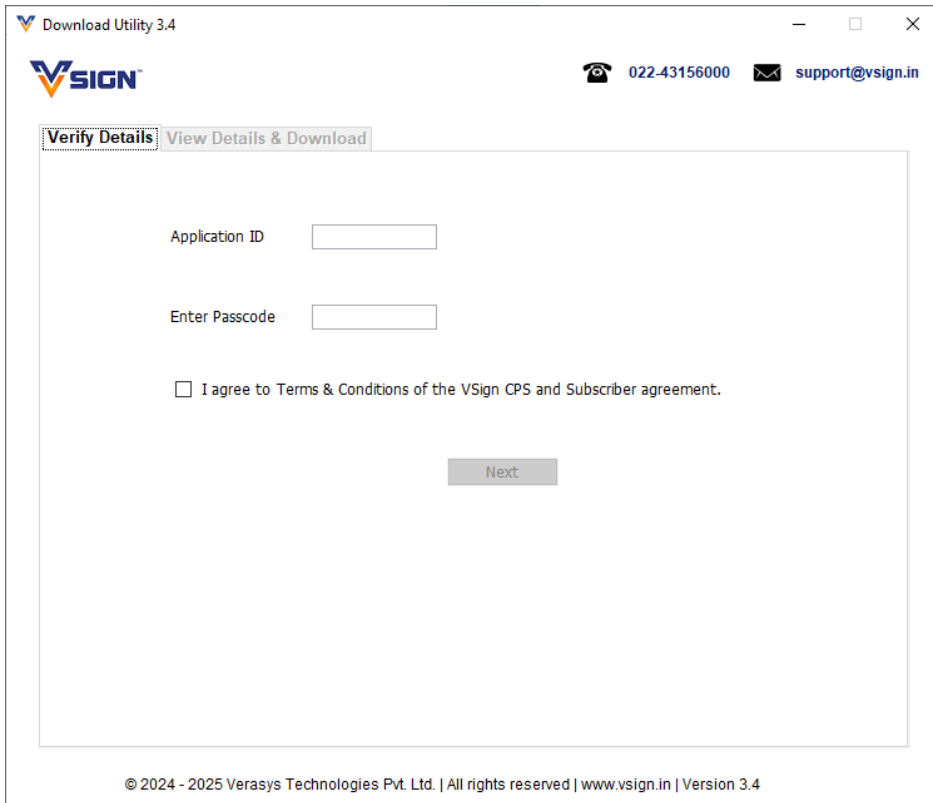

**Note:** - Don't click on cancel button while installing the Utility.

- Click on **"Finish"** Button.

- Insert the token in your system, enter the application id and passcode to proceed further.

The screenshot shows a window titled "Download Utility 3.4" with the VSign logo. In the top right corner, there is a phone icon with the number "022-43156000" and an email icon with the address "support@vsign.in". Below the logo, there are two tabs: "Verify Details" (which is active) and "View Details & Download". The "Verify Details" tab contains the following elements:

- A label "Application ID" followed by a text input field.
- A label "Enter Passcode" followed by a text input field.
- A checkbox with the text "I agree to Terms & Conditions of the VSign CPS and Subscriber agreement."
- A "Next" button centered below the checkbox.

At the bottom of the window, the copyright notice reads: "© 2024 - 2025 Verasys Technologies Pvt. Ltd. | All rights reserved | www.vsign.in | Version 3.4".
